

Student Scholarship Information

**Smart & Sustainable Campuses Conference
March 21-23, 2010
College Park, MD**

Applications Due By February 19, 2010

The National Association of College and University Business Officers (NACUBO) and University of Maryland will hold the 5th Annual Smart & Sustainable Campuses Conference, "Making the Business Case," on March 21-23, 2010 at the Inn & Conference Center at the University of Maryland, College Park, MD.

Thanks to funding from the University of Maryland, we are accepting applications from college students interested in receiving a complimentary registration to attend the conference.

Instructions: To receive a scholarship, all students must be currently enrolled in an undergraduate or graduate program and must submit a resume and explain in a cover letter (not to exceed 300 words) how the conference relates to your course of study and your future career. All resumes must be current, and include the applicant's major, GPA, the home and school address, phone number and email address. We expect to offer 15 scholarships for both undergraduate and graduate students.

The scholarship will include:

- on-site registration materials,
- attendance at all conference sessions, including the opening reception and
- meals offered during the event.

The scholarship **will not provide** for travel, housing or non-conference meals.

NOTE: All applications must be received by **February 19, 2010**. Reviews will be conducted following the closing date. Notifications will be made by **February 26, 2010**.

Send Applications to:

Rebecca Murphy, meeting assistant, NACUBO

Background:

The 5th Annual Smart & Sustainable Campuses Conference brings together current and future leaders in the areas of campus planning and development, environmental health and safety, sustainability, finance and business, facilities management, and procurement. This comprehensive symposium will feature sessions and workshops on smart growth and sustainable practices that serve the economy, the community, and the environment specifically in:

Operational Solutions

- Food and dining
- Energy and water management
- Transportation
- Green building

Financing Sustainability

- Identify strategies for funding sustainability
- Innovative uses of financing mechanisms

Institutionalizing Sustainability

- Trustee, faculty and student engagement
- Curriculum integration
- Climate action planning

Planning and Smart Growth

- Facilities management
- Town/gown collaboration
- Mixed-use development
- Integrating sustainability into master plans
