Bethune-Cookman University with a goal of “Building a Better Tomorrow” has become an advocate for the development of a sustainable campus. Through fostering innovative ideas to preserve our campus, we are one step closer in efforts to sustain our planet for years to come.

**Energy and Sustainability**

**Infrastructure Modernization**

$19.8 MILLION IN POTENTIAL SAVINGS OVER A 20 YEAR PROJECT TERM

**Environmental Stewardship**

**INNOVATION:** Environmental improvements through a wide range of measures such as:
1. Chiller Upgrades
2. Water Conservation
3. LED Lighting
4. Campus Wide Control
5. Renewable Energy: Solar Canopies

**SUSTAINABILITY:** Improvements will help reduce carbon footprints by 3,172 metric tons of carbon dioxide annually, which is equivalent to planting approx. 2,600 acres of trees per year.

**ENGAGEMENT:** Some faculty and staff support the commitment through eco-friendly notes.

**GO GREEN:** Please do not print this e-mail unless you really need to.
