Profitable partnerships
Partnerships between CCBC and local utility and energy-related companies have proven to be environmentally, socially and fiscally beneficial:

Our promise
CCBC is committed to college-wide efforts in recycling, energy conservation, LEED-compliant construction, and use of sustainable products and practices. Where these practices also yield cost savings, CCBC serves both the environment and the college community.

Energy & Economic Responsibility
The financial impact of CCBC’s energy conservation effort is impressive:

- **$4-6M** in avoided energy costs
- **$274K** in rebates
- **$261K** in incentive payments

Social Responsibility
In the eight months since the installation of its campus solar panels, CCBC has positively impacted the environment by the equivalent of:

- **71,000** trees planted
- **6.1 million** pounds of carbon dioxide saved
- **4 GWh** of energy produced
- **2 million** gallons of water conserved
- **312,000** gallons of gasoline saved
