March 19, 2015

United States House of Representatives  
Washington, DC 20515

Dear Representative:

On behalf of the over eighty member organizations and institutions of the Student Aid Alliance, which represents students, college presidents, and other educators who support federal student aid, we write to express our strong opposition to the FY 2016 Budget Resolution under consideration in the House.

It would be difficult to overstate the significant negative impact this budget resolution would have on American college students. At a time when the return on investment of a college education has never been greater; when global competition has never been more intense; and when our economy is more dependent than ever on an educated and innovative workforce, this budget represents a threat to our nation’s future economic competitiveness. In particular:

- The budget resolution would freeze the Pell Grant maximum award at the current $5,775 for 10 years, and eliminates over $89 billion in mandatory Pell funding.
- The budget would further reduce eligibility for Pell Grants, forcing students with financial need to borrow more to afford college.
- The budget would eliminate the in-school interest subsidy for low-income undergraduates, cutting over $34 billion in aid — and adding an average of $3,800 in debt to the students with the most need.
- The budget would eliminate public service loan forgiveness and roll back income-based repayment programs, cutting $26.8 billion in benefits to borrowers. This will make student loans more expensive to repay, especially for nurses, police, firefighters, service members, teachers and other public service employees.
- This budget would cut domestic discretionary funding by $759 billion over the next ten years, putting extraordinary pressure on the funding for student aid programs.
• The budget would add a market risk penalty to student loan scoring, artificially inflating the cost of student loan programs and obscuring the actual budgetary impact of these programs.

Overall, this budget would cut over $150 billion in student aid. If enacted, this approach will threaten America’s current competitive advantage in the global economy while countries such as China and India are rapidly expanding their investments in higher education.

We urge you to affirm the historic, bipartisan commitment Congress has made to America’s students and reject the draconian cuts proposed in the House Budget Resolution. The pathway to economic growth requires a continued investment in postsecondary education.

Sincerely,

Molly Corbett Broad
