

**U.S. and Canadian Institutions Listed by Fiscal Year 2012 Endowment Market Value and Percentage Change\* in Endowment Market Value from FY 2011 to FY 2012  
(Revised February 4, 2013)**

**Before reviewing the data on the following pages, please note:**

The percentage change values listed for the participating institutions **DO NOT represent the rate of return for the endowments' investments**. Rather, the percentage change in the market value of an endowment from FY 2011 to FY 2012 reflects the net impact of:

- 1) withdrawals to fund institutional operations and capital expenses;
- 2) the payment of endowment management and investment fees;
- 3) additions from donor gifts and other contributions; and
- 4) investment gains or losses.

The market values also include the estimated valuations of real estate and other “illiquid” assets, which may have large increases or decreases in value during a relatively short period of time. In addition, transfers to the endowment from other institutional budget accounts may account for the differences in growth in endowment assets.

These factors suggest that any large increases or decreases in endowments over the past year may be exaggerated. As such, large percentage changes should be interpreted very cautiously.

## U.S. and Canadian Institutions Listed by Fiscal Year 2012 Endowment Market Value and Percentage Change\* in Endowment Market Value from FY 2011 to FY 2012

**\*Note:** The percentage change does NOT represent the rate of return for the institution's investments. Rather, the percentage change in the market value of an endowment from FY 2011 to FY 2012 reflects the net impact of:

- 1) withdrawals to fund institutional operations and capital expenses;
- 2) the payment of endowment management and investment fees;
- 3) additions from donor gifts and other contributions; and
- 4) investment gains or losses.
